

WOODLAND MANAGEMENT ROADSHOW

Theory and practice in community woodland management

The aim of the day is to demystify the process of managing a woodland, introducing you to the key concepts in theory and practice. There will be plenty of time for networking and lots of good food!

We will be holding four events between July and September 2010 with speakers and workshop leaders with real local experience of community woodland management, so please come along, share your experiences and hopefully learn something new. Feel free to suggest ideas, offer to lead a workshop or give a talk...

Morning starts 10:30am

The morning session will be a theoretical (in a fun way and there are no tests!) introduction to community woodland management:

- Getting to know your group and community
- Getting to know your woods
- Defining objectives
- Preparing and implementing a management plan

Venues

SW Wales 17th July 2010

Trosersch Woods near Llangennech, Swansea

Mid Wales 24th July 2010

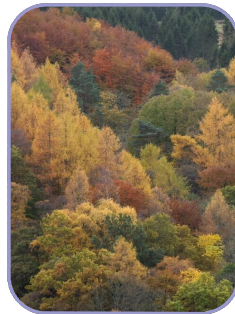

Montgomeryshire Wildlife Trust, Dolforwyn woods in Abermule

N Wales 7th August 2010

Moelyci near Tregarth, Bangor

SE Wales 11th September 2010

Blaen Bran Community Woodland, Cwmbran

Afternoon ends 4:30pm

In the afternoon there will be more in depth workshops, some of which will be held out in the woods. Workshop ideas include:

- Getting to know and taking care of wildlife
- Monitoring: where you have come from and where are you going?
- Practical work with volunteers / contractor
- Applying for a Better Woods for Wales grant
- Making an income from the woods
- Making an appropriate response to climate change

Book Your Place!

The day costs £15 per person. A limited number of free places are available for Llais y Goedwig members.

Supported by the Coed Lleol project of Small Woods, and funded by the Forestry Commission Wales and the Countryside Council for Wales
